

Lisa Corless-Canavan

Magnificent Manager!

Name:	Lisa Corless (was Canavan)
Age:	40
My favourite memory from my time at St. Joseph's...	All my memories of my time at St. Joseph's are happy ones. I loved every minute of my time there it was like being with your friends and family all day, every day. My best times were playing sports and being the captain of the skittle ball team, also the trips were amazing like the weekend away in the Lake District.
My message for the children at St. Joseph's now...	School is not just about learning, it's about having fun while you're learning and as adults always say, these are the best and most important days of your life so don't waste them. If I could return to school I would in a heartbeat, and this is something I thought I would never say. St. Joseph's has always been special to me as my mum went there and now my children do. Just remember you can only do your best and give it everything you have, and you will achieve anything.
What did I become?	After my time at secondary school I studied for my N.V.Q in retail and became a shop manager for 10 years. I then met my soul mate and got married, so for the past 20 years I have been a housewife / mother to our 4 children who have also been through St. Joseph's with two still there, so I have become everything I ever wanted and more.
