

# Rachael Walker

## Terrific Teacher!

Name:	Rachael Walker
Age:	40
My favourite memory from my time at St. Joseph's...	I loved my time at St Joseph's, and I remember it feeling a safe and happy place where everyone was included. I was quite a shy child, but the teachers encouraged me to try new things, which pushed me out of my comfort zone. I remember when I was in the Juniors performing a solo dance routine in a school nativity and playing the violin in assembly too. I would never have done those things without the encouragement of the teachers and my fellow pupils.
My message for the children at St. Joseph's now...	Enjoy your time at school, don't be afraid to try new things. Believe in yourselves and each other.
What did I become?	A High school Teacher, specialising in Art and Technology.
