

Summer 1: Learning in Year 6

English

Revision in reading and SPAG will be done in the lead up to SATS and the continuation of our writing units will see us analysing and writing 'explanation texts' and getting lots of inspiration of different text types from our novel Kensuke's Kingdom by Michael Morpurgo.

Supporting your child with their learning

- Practise timetables with inverse calculations too
- Get your child to read every night – this really does help
- Provide a quiet space to complete homework and help where you can
- Maths related – help your child tell the time.

Science

Science will see us look at animals including humans. This means we will be looking inside the human body to the circulatory system and understanding the different parts and functions. From this we will investigate how diet and exercise effects the body and look at the pulse. From this we will look at how drugs, alcohol and smoking effects the body and mind.

History and Geography

Due to some extra SATs boosters we have to finish our topic on the Victorians by researching in to the richer side of living back then and the introduction of the seaside holiday; looking at the rise of tourism in Morecambe.

Maths

It's the last leg of our SATS revision and boosters. The tests are due to take place on Monday 9th May for the week. After this we will be completing transitional work to High school.

Computing

Through Purple Mash we will be catching up on missed units like, Networks and presenting. This will see us learn about how to present our work on different programmes and sharing them

Art and DT

In art we will be linking our drawing and painting skills to our history and looking in to the artist William Morris. We will create a design that is inspired by his work on nature and printing. Due to the delay in resources, we will be completing our DT topic on making our fairground rides linked to previous learning in Science and History.

P.E

We can't wait to get back outside and enjoying lots of P.E. This half term will see us outside playing striking and fielding games like tennis, rounders and cricket.

PSHE

Last half term we started the 'Raising Aspirations' programme, where we looked at our own qualities and skills that we have. We will be continuing with this and how we can use these qualities and skills in our future lives and in the work place. The programme is all about raising the children's aspirations and opening up the world of work.

Music

Through Charanga will be completing the Music and Me unit, where we will be singing and leaning about melodies.

German

German will be all about learning about games to play and foods. We will be revising numbers and dates.

R.E

Year 6 will be looking at how Pentecost is the celebration of the Spirit's transforming power. We will be able to describe and show understanding of Scripture, beliefs, ideas, feelings and experiences of the power of the Holy Spirit in witnessing to the Good News of Jesus Christ and make links between them.
