

Spring 2: Learning in Year 6

English

In English, we will continue with lots of SATs preparations. We will be looking at different reading skills and our punctuation and grammar.

In writing, we will be looking at explanation texts and writing a narrative prequel.

Supporting your child with their learning

- Practise timetables with inverse calculations too
- Get your child to read every night – this really does help
- Provide a quiet space to complete homework and help where you can
- Maths related – help your child tell the time.

Science

Science will see us look at evolution and inheritance!

We will be able to recognise that living things have changed over time and that fossils provide information about living things that inhabited the Earth millions of years ago.

In addition, we will learn to recognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents.

History and Geography

Year 6 will be working on a new Geography unit on Volcanoes and Earthquakes. We will learn what happens during an earthquake, where in the world earthquakes are prone and why; alongside what is a volcano.

Maths

We will be looking at ratio and proportion; fractions, decimals and percentages and lots of SATs preparations. Extra work will be done to practise!

Computing

Spring term sees us blogging! Mrs Whittaker will help us navigate through this!

P.E

We will be looking at Fencing this half term with a team of specialists.

PSHE

In PSHE we will be learning about Human Rights, including - people who have moved to Lancaster from other places, (including the experience of refugees); about human rights and the UN Convention on the Rights of the Child and about homelessness.

Art and DT

We will be looking at landscapes in art – using our human and physical geography knowledge to create city and natural landscapes. We will be drawing perspective of these landscapes.

German

This half term we will explore the city of Germany and learn simple directions!

R.E

Year 6 will be looking into the experience of community as an essential and enjoyable part of life for people of every age and faith. We will also be linking, remembering, celebrating and responding to the experience of a wide variety of books and purpose for which they were written and the Bible as the story of God's love told by the people of God.

Music

Our music will see us learn through the topic of 'You've got a friend.' We will be singing and performing in our lessons.

Educational / Enrichment Visits

PE will be our enrichment visit with Fencing. We will also be preparing for Holy Week.
